This Course: 1. Is in the spirit of freakonomics (<http://www.freakonomics.com/blog/>): it addresses out-of-the ordinary applications of economic analysis. It includes applications of price theory or microeconomics. There is little reference to macroeconomics.

2. Explores important questions, including: why do people marry or live together? why do women have kids without living with a partner? Poverty and families. What should be the role of government in matters of family? What are the effects of marriage markets? Who dates whom?

3. Offers new insights on popular culture.

4. Uses microeconomic tools (including optimization by consumers and labor market analysis) and, to a limited degree, statistical and demographic tools.

5. Includes an international perspective

Main ways of Getting Information:

- Lectures
- Blackboard (Bb): When you officially enroll in this class at SDSU, you are automatically enrolled in the class Blackboard website. **To login**, use the same information you use to access WebLine. Your **username** is your Student ID (no dashes) and your **password** is your University PIN. If you don't know your Student ID number or wish to change your University PIN, please contact SDSU e-services at <http://www.sdsu.edu/e-services/>. PIN changes will be recognized by Blackboard within 24 hours.
- Readings. Principal source of readings is a textbook: Hoffman and Averett (H&A), *Women and the Economy*, second edition. A custom edition excluding 4 chapters is for sale at the Aztec bookstore. It should be priced at not more than 80\$ (The full book costs 130\$ on line!). Students are also expected to read a few chapters out of *Marriage and the Economy* (MAE) edited by Shoshana Grossbard-Shechtman, Cambridge U Press, 2003, as well as other readings.

Assessment and Grading

Your grade in the course is determined as follows:

Powerpoint Presentation at end of semester	20 %
Two exams including essays (30% each)	60 %
Multiple choice test	10%

The presentation will consist of powerpoint slides to be prepared by a group of students. Prior to presentation, groups need to give professor a brief report that includes the text of the slides, some background and sources, and attributes credit to each member who worked on a particular slide. More instructions to follow.

Class participation is based both on attendance and active and informed participation in class discussions. Students are encouraged to bring supplementary materials pertaining to the materials studied.

Any request for grade change, whether related to an exam or assignment, will have to be submitted to me in writing, clearly indicating the question and the rationale/ argument behind your request.

A detailed calendar will be distributed after classes start.
